PREFACE

Praise and gratitude prays to the presence of Allah SWT because of His mercy and grace so that the author can complete the Thesis entitled "**THE LIFE EXPERIENCES OF COVID-19 SURVIVORS IN OSING TRIBE IN THE WORKING AREA OF PASPAN PUBLIC HEALTH CENTER BANYUWANGI 2021**".

This Thesis is a form of appreciation from the Student Creativity Program (PKM) in the Social Humanities Research (RSH) which passed the 34th National Student Scientific Week (PIMNAS) in 2021 which was organized by the Ministry of Education and Culture and Minister of Research and Technology (Kemendikbud Ristek). This thesis was compiled as one of the requirements to obtain an Associate's Degree in Nursing (Amd.Kep) at Banyuwangi Institute of Health Sciences.

In the preparation, the author received many directors and assistance from various parties. For that, on this occasion the author does not forget to thank the honorable:

1. DR. H. Soekardjo as the chairman of Banyuwangi Institute of Health Sciences.
2. M. Al. Amin, S.Kep., Ns. M.Kes as the first vice chairman for Academic Affairs at Banyuwangi Institute of Health Sciences.
3. Erik Toga, S.TP., M.Kes as the second vice chairman for Infrastructure for the Banyuwangi Institute of Health Sciences.

4. Ivan Rachmawan, S.Kom as third vice chairman for Student Affairs at Banyuwangi Institute of Health Sciences.
5. Ns. Atik Pramesti W., M.Kep as the Head of the Diploma III in Nursing Study Program at Banyuwangi Institute of Health Sciences.
6. Ns. Novita Surya P., M.Kep as Advisor 1 who gave me many directions.
7. Ns. Fransiska., M. Kep as Advisor 2 who gave many directions to the author.
8. The head of Banyuwangi Health Office who has provided research facilities to the author.
9. Paspan Public Health Center, Glagah, Banyuwangi which has provided research facilities to the author.
10. My parents Mr. Tony Subakti, Mrs. Sri Rejeki Handayani and my beloved sister Isabella Rosalin who always pray for me without interruption and provide material support.
11. Thank you to me who have fought and survived so far. Thank you for going through many obstacles, let's continue the process together. You are strong grace.
12. Muhammad Nizarudin as my partner in various ways, who always accompanies me, listens to all my ramblings, both difficult and happy, always supports and provides motivation and prayers.
13. Kintan Dua Permata as my best friend and sister who always gives prayers, support and encouragement.

14. Citra Aisyah as a sister and friend, who always accompanies, supports and prays.
15. Eilham Wahyu Pratama who always helps me in editing my Thesis as well as prayers and support.
16. Muhilda Fitrahana as my best friend who always gives prayers, support and encouragement.
17. Laila Fajar Azahra as a sister who supports and prays for the author.
18. Nora Dori Nori Strawberry and Rima Comel as support systems, dining companions and intellectual gifts.
19. Mak nie (Fanny) as a friend who supports and supports the author.
20. The TA TEAM are my friends in the struggle at Jember University with the Agricultural Product Technology Study Program (THP), especially my best friend Hasna who always supports me, and other friends, namely Alfin, Delvia, Dewi, Nyne, Rizka, Shifanny and Wida who always support and pray for me.
21. The PKM-RSH TEAM, namely Mrs. Novita Surya, Mas Ikhlas Bekti and Mas Sarwono Dwi Saputra who always provide motivation, positive support and prayers.
22. Menik Squad defenders, namely Merre, Putri, Pio, Pinky, Jamela, Cindy, Arindi who always support and pray for me.
23. All lecturers and staff of STIKES Banyuwangi who have provided support to the author.
24. All my friends from the D3 of Nursing study program class 2019 who

have always supported me in completing this research.

The author tries to complete this thesis as well as possible, but the author realizes that there are still many shortcomings. Therefore, the writer expects constructive criticism and suggestions from all parties for the perfection of this thesis.

ABSTRACT

THE LIFE EXPERIENCES OF COVID-19 SURVIVORS IN OSING TRIBE IN THE WORKING AREA OF PASPAN PUBLIC HEALTH CENTER BANYUWANGI

By: GRACEILA OKTAMANICKA DAYU

Corona virus Disease 2019 (COVID-19) is an infectious disease caused by Severe Acute Respiratory Syndrome Corona virus 2 (SARS-CoV-2). The patients experiences who have successfully recovered from COVID-19 is due to being disciplined and obedient while undergoing treatment for COVID-19 patients, both in carrying out medical care and psychological support. In the healing of COVID-19, the Osing Tribe used rituals to maintain health traditionally; traditional medicine used and believed to use the method of mantras, tattoos and spices that are eaten or drunk. This study aimed to explore the life experiences of COVID-19 survivors in Osing Tribe in the working area of Paspas Public Health Center Banyuwangi.

The research method used qualitative with phenomenological methods with purposive sampling technique. Total population was 123 participants by taking 8 participants. The results showed that 3 themes were analyzed, namely coping strategies in the early stages of being diagnosed with COVID-19, self-care styles and positive support provided by the surrounding environment. Data analysis in this study used the Colaizzi method and the analysis process was carried out with Nvivo 12 software. In this study, the life experiences of COVID-19 survivors in Osing Tribe indirectly used a Bio psychosocial-Spiritual and Cultural approach so that holistic health is realized.
